511 9 - Navigation apparatus and instruments, Monitoring apparatuses and instruments, Measuring apparatus and instruments, Signalling apparatus and instruments, Detecting apparatus and instruments, Inspecting apparatus and instruments, Life-saving apparatus and instruments; Railway traffic safety appliances; Electrical and electronic apparatus

that is fixed, on-board or installed at railway track level for the transmission of position and signalling data between railway vehicles and control centres enabling management and control of railway traffic, railway vehicles and railway signalling equipment, in particular for locating and supervising trains, for securing railway tracks and train traffic, for traffic regulation, for railway vehicle fleet planning and management; Electric power supply for railway vehicles; Computer train management networks based on communication consisting of the following goods: Especially, Mainframe and Communications networks; Computers and computer peripherals; Electronic and electric data processing equipment and satellite positioning equipment, and electronic and electric apparatus for monitoring rail and road traffic; Systems for analysing and diagnosing the condition of railway and road infrastructure equipment; Control equipment for managing rail and road transport lines; Fuel cells; hydrogen fuel cells; Electrical cells and batteries; All the aforesaid goods being for the following goods: Passenger or cargo transport railway vehicles; Power supplies or control systems for the aforementioned vehicles, incorporating an on-board energy storage device for land vehicles, consisting in particular of a high-voltage traction battery, supercapacitors, an electrical power converter for exchanging energy (charging the battery and supplying power to the traction), a cooling system, an energy management system consisting of an electronic supervision device and its associated software, storage tanks, and an on-board device for recharging the high-voltage battery via a shore power outlet; High-voltage batteries, For use with the following goods: Land automotive vehicles, Especially rail bound vehicles.

12 - Railway vehicles; Electric and/or diesel railway vehicles, railway vehicles equipped with fuel cells; Passenger or cargo transport railway vehicles, automatic or non-automatic, namely Railway vehicles with iron wheels or guided vehicles with wheels equipped with tyres or other kinds of ground connection; Railway or tired land vehicles for transporting urban or suburban passengers; Rail vehicles, including the following products: Locomotives, Railway carriages, Tenders (railway carriages), Railcars and Railcars, Railway trains with or without motor coach, articulated or non-articulated railway trains; Storage tanks for the aforesaid railway vehicles; Railway couplings; Motors and engines (for vehicles) and parts thereof, Vibration dampers, Pneumatic shock absorbers, Transmission belts and associated gears, Air pumps [vehicle accessories] and Drive shafts, Propulsion mechanisms, Brakes, Bogies, Axles for vehicles, Traction systems for the aforementioned railway vehicles; Land vehicles, in particular railway vehicles, equipped with an on-board energy storage system, this system consisting in particular of a high-voltage traction battery, supercapacitors, an electrical power converter for exchanging energy (charging the battery and supplying power to the traction), a cooling system, an energy management system consisting of an electronic supervision device and its associated software, storage tanks, and an on-board device for recharging the high-voltage battery via a shore power outlet; Battery-powered railway vehicles.

37 - Construction services, Supervision of works; Installation, repair, Renovation and Maintenance, In connection with the following goods: Rail and road infrastructures, Coverings and Tracks, and Apparatus for the aforesaid goods; Installation, Repair, Maintenance, Renovation, Maintenance In connection with the following goods: Railway or tired land vehicles for transporting urban or suburban passengers, Rolling stock for railways, including the following products: Locomotives, Wagons, Locomotive tenders, namely Wagons, Railcars and Self-propelled vehicles, railway trains with or without an engine, articulated or non-articulated railway trains, storage tanks for the aforesaid railway vehicles, Railway couplings, vehicle engines and their parts, Pneumatic shock absorbers, Machine

belts and Corresponding gears, Air pumps, namely Fittings for vehicles, Drive shafts, Propulsion mechanisms, Brakes, Bogies, axles for vehicles, Shock absorbers, Electric motors for vehicles, Traction systems for the aforementioned railway vehicles; nstallation, Maintenance, Renovation, Main-tenance and Repair In connection with the following goods: Apparatus and instruments for navigation, control, measure-ment, signalling, detection, inspection, rescue (life-saving), Apparatus for rail traffic safety, Electrical and electronic apparatus that is fixed, on-board or installed at railway track level for the transmission of position and signalling data between railway vehicles and control centres enabling management and control of railway and road traffic, railway vehicles and railway signalling equipment, in particular for locating and supervising trains, for securing railway tracks and train traffic, for traffic regulation, for railway vehicle fleet planning and management, power supplies for railway vehicles, computer train management networks based on communication consisting in particular of a central computer and a communications network, Computers and computer peripherals, Electronic and electric satellite position data processing equipment and electronic and electric apparatus for monitoring railway and road traffic, systems for analysing and diagnosing the condition of railway and road infrastruc-ture equipment, Fuel cells, hydrogen fuel cells, Electric batteries and Batteries, Rail and road infrastructures, Cover-ings and Tracks, and Apparatus for the aforesaid goods; all the aforesaid services, In connection with the following goods: Mass transit or freight transport railway vehicles, infrastructures and equipment thereof; nstallation, Repair, Maintenance, Renovation, Maintenance In connection with the following goods: On-board energy storage systems for railway vehicles, consisting in particular of a high-voltage traction battery, supercapacitors, an electrical power con-verter for exchanging energy (charging the battery and supplying power to the traction), a cooling system, an en-ergy management system consisting of an electronic super- vision device and its associated software, and an on-board device for recharging the high-voltage battery via a shore power outlet; nstallation, Repair/maintenance, Renovation, Maintenance, In connection with the following goods: High-voltage batteries for land vehicles, in particular railway vehicles.
