paratus, educational apparatus and simulators; Telescopes; Tripods for telescopes; Cameras for telescopes; Optical lenses; Photographic lenses; Lenses for telescopes; Thermal imaging apparatus for night vision; Image identifier night vision devices; Global positioning instruments; Laser range finders; Optical finders; Viewfinders, photographic; Viewfinders [for cameras]; Microfilm readers; Bomb sights; Angle viewfinder; Fibre optic viewers [not for medical purposes]; Riflescopes [telescopic]; Target location apparatus [optical]; Target surveillance apparatus [telescopic]; Target seekers [telescopic]; Target trackers [telescopic]; Target location apparatus [telescopic]; Sighting telescopes for firearms; Luminous pointers; Computer software for Global Positioning Systems; Alarm systems; Alarms; Alarm sensors; Radar apparatus; Radar systems; Target surveillance apparatus; target location apparatus; Telescopic sights; Distance measuring apparatus; Telescopic gun sights; Gyrostabilized aiming sights; Scopes for crossbow; Optical lens sights; Target sights for artillery [telescopic]; Target sights for guns [laser]; Target sights for artillery [electronic]; Telescopic sights; Sight devices [telescopic] for terrestrial weapon use; Sight devices [telescopic] for naval weapon use; Sight devices [telescopic] for aeronautical weapon uses; Infrared gun sighting apparatus; Instrumentation simulators; Weapons simulators; Simulators for training operators in weapons systems control; Material testing instruments and machines; Heat regulating apparatus; Downloadable and recorded content; Testing and quality control devices; Animal sperm analyzers for laboratory use; Scientific specimens for laboratory use; Solar panels; Control installations (Electric -); Downloadable software for radar, radio frequency, and signal jamming; Downloadable software for detecting, countering, disabling, and/or destroying robots, vehicles, and drones; Radar, radio frequency, and signal jamming apparatus and equipment; electronic information technology defense systems for countering, disabling, and/or destroying robots, vehicles and drones; electronic information technology defense equipment for disabling and destroying drones and unmanned aerial systems (UAS) by interfering with or impeding radio frequencies; Computer software for coordinating the operation and management of a variety of sensors, computer hardware, communications equipment, and unmanned vehicles; Computer software for operating and managing unmanned vehicles with the aid of artificial intelligence; Computer hardware and recorded software system for remotely monitoring environmental conditions and controlling devices within a building, facility, grounds, or designated spatial area; Self-driving and autonomous vehicle electronic driving system and equipment in the nature of artificial intelligence, machine learning, deep learning, high performance computing, and simulation software and hardware; Quantum computers; Quantum dots [crystalline semi-conductor materials]; Quantum dot light-emitting diodes [QLED]; Electrical circuits and circuit boards; Encryption apparatus; Electronic encryption units; Computer software for encryption; Decoding apparatus; Encoding and decoding apparatus and instruments; Integrated circuits; Electronic number generators; Decryption software; Decryption apparatus; Electronic decryption units; Data decryption apparatus; Computer software for decryption; Quantum key generation software; Quantum key generation apparatus; Quantum key distribution software; Quantum key distribution apparatus; Random number generator; Photon counters; Single-photon detector; quantum computing hardware; quantum computing software; quantum software development kits; Point-to-point communications equipment; Point-to-point communications apparatus; Intercommunication apparatus; Wireless communication apparatus; Wireless communication apparatus; Intercommunication satellites; Satellite transceivers; Radiotelephony sets; Computer software for the remote control of telephone sets and radiotelephony sets; Terminals for radiotelephones; Transmitters [telecommunication]; Wireless transmitters; Satellite

transmitters; Optical encoders; Optical networks; Optical transceivers; Digital optical transmission apparatus; Computer software for the remote control of telephone apparatus; Radiotelephony sets; Robots for measuring pipe deformation; Sounding robots for use in laboratories, on site and in the field in relation to the following fields: Municipal engineering, Civil engineering, Construction, Natural and technological hazards and contamination, Mobility of persons and goods, transport systems and means of transport, including safety thereof, Groundwork, Networks; parts, fittings and accessories (included in this class) for the aforesaid goods.

10 - Medical apparatus and instruments; Dental apparatus and instruments; Surgical apparatus and instruments; Veterinary apparatus and instruments; Specimen samplers for medical use; Apparatus for DNA and RNA testing for medical purposes; Diagnostic, examination, and monitoring equipment; Specimen cup holders; Haemocytometers; Apparatus for carrying-out diagnostic tests for medical purposes; Medical devices and instruments for the detection and diagnosis of coronavirus, COVID-19 and influenza; parts, fittings and accessories (included in this class) for the aforesaid goods.

35 - Advertising; Business management, organisation and administration of commercial affairs; Office functions; Providing business management start-up support for other businesses; Project studies for businesses; Business networking services; Career networking services; Business intermediary services relating to the matching of potential private investors with entrepreneurs needing funding; Business consultancy and advisory services; Business analysis, research and information services; Sponsorship search; Sponsorship search consultancy services; Collection of data; Data processing, systematisation and management.

36 - Financial, monetary and banking services; Financing and funding services; Tax and duty payment services; Financial sponsorship and patronage; Financial advice; Project finance; Providing funding for the development of new technology; Providing financing to emerging and start-up companies; Financial investment; Mutual fund investment; Capital investment; Investment analysis; Financial services relating to investment; Arranging investments, in particular capital investments, financing services and insurance; Financial brokerage services; Hire-purchase financing.

39 - Transport.

42 - Science and technology services; Scientific and industrial research; Natural science services; Conducting technical project studies; Design services; Conducting technical project studies; Technical research; Technical research; Scientific research; Scientific and technological design; Providing information about industrial analysis and research services; Computer software design; Hardware design; Computer hardware development; Engineering project studies; Preparation of project analysis studies; IT project management; Technical research projects and studies; Industrial analysis and research services; Certification [quality control]; Quality testing of goods and Services for certification purposes; Quality audits; Process monitoring for quality assurance; Environmental testing and inspection services; Technical supervision and inspection; Preparation of technological research reports; Preparation of scientific research reports; Preparing of industrial research reports; Engineering services; Design of mechanical, electromechanical and optoelectronic apparatus and instruments; Safety technological testing services; Design and development of regenerative energy generation systems; Design and development of energy materials; Design and development of explosives, rifles, ammunition, projectiles, weaponry and firearms; Design and development of drones, unmanned aerial vehicles and pilotless aircraft; Technical advice relating to safety; Material testing services; Data warehousing; Hosting services, software as a service, and rental of software; IT

services; Installation, maintenance and updating of computer software; Software development, programming and implementation; Software as a service [SaaS]; Platform as a service [PaaS]; Genetic mapping for scientific purposes; Animal semen testing services for research purposes; Design of industrial plant; Electronic storage of digital video files; Wastewater analysis related to the detection, prevention, mitigation, and containment of pandemic threats; Research and development of scientific information and Providing of scientific, in relation to the following fields: Data solutions for use in detecting, preventing, mitigating and containing pandemic threats; Research and development of scientific information and Providing of scientific, in relation to the following fields: Decision making tools for use in detecting, preventing, mitigating and containing pandemic threats; Research in the field of physics; Consulting services in the field of quantum computing; Quantum computing services; Scientific research in the field of quantum computing; Data encryption services; Data decryption services; Data encryption and decoding services; Encryption, decryption and authentication of information, messages and data; Design services relating to integrated circuits; Design of electric circuit boards; Research in the field of telecommunications technology; Research in the field of information technology; Research in the field of telecommunications technology; Computer security services in the nature of administering digital certificates; Research in the field of quantum encryption; Research in the field of quantum-based telecommunication; Research in the field of single-photon based telecommunication; Research in the field of optics; Development in the field of quantum encryption; Development in the field of quantum decryption; Development in the field of quantum-based telecommunication; Development in the field of single-photon based telecommunication; Development in the field of quantum cryptography; Development in the field of optics; Validation and testing of quantum-resistant algorithms; Software as a service [SaaS] featuring cloud-based software for creating, analysing and running programs for quantum algorithms.

44 - Human healthcare services; Medical services; Veterinary and agricultural services; Hygienic and beauty care for animals; Agriculture, aquaculture, horticulture and forestry services; Medical screening; Genetic testing for medical purposes; Medical laboratory services for the analysis of blood samples taken from patients; Semen extraction (Animal -); Artificial insemination of animals; Medical analysis services for diagnostic and treatment purposes provided by medical laboratories; Nutrition counseling; Nutrition and dietetic consultancy; Lifestyle advice and consultancy (medical advice); Medical and health services relating to DNA, genetics and genetic testing; DNA screening and analysis for assessment of health and fitness and optimisation of health and fitness; veterinary analysis; Providing medical consulting and advice related to detecting, preventing, mitigating and containing pandemic threats; preparation of reports, in relation to the following fields: detection, prevention, mitigation, and containment of pandemic threats; Preparing briefs, case studies and profiles related to the detection, prevention, mitigation, and containment of pandemic threats; Providing medical information in relation to the following fields: detection, prevention, mitigation, and containment of pandemic threats; Providing medical information relating to the following fields: COVID-19, SARS-CoV-2, SARS-CoV-2 variants and coronaviruses; Medical, health and medical laboratory data analysis services related to the detection, prevention, mitigation, and containment of pandemic threats; Medical, health and medical laboratory data analyzing services related to the detection, prevention, mitigation, and containment of pandemic threats; Providing an online global risk index related to the detection, prevention, mitigation and containment of pandemic threats for others (health information services); Medical testing services relating to the diagnosis and treatment of disease; Performing diagnosis of diseases;

Medical analysis services for the diagnosis of COVID 19; medical analysis services for the diagnosis of coronaviruses; Medical analysis for the diagnosis and treatment of persons; RNA or DNA analysis for COVID 19 diagnosis and screening services; RNA or DNA analysis for coronavirus diagnostic and screening services; COVID 19 screening services; Coronavirus screening services; on-site COVID 19 screening and testing services; On-site coronavirus screening and testing services; temperature checking services as part of COVID 19 screening services; Information, advice and consultancy in relation to the aforementioned.

511 **1** - Industrial chemicals; Chemicals used in science; Chemical preparations for use in photography; Chemicals for agriculture, horticulture and forestry; Unprocessed plastics; Chemical substances, chemical materials and chemical preparations, and natural elements; Fire extinguishing compositions; fire prevention substances and Fire extinguishing substances; Tempering preparations; Soldering preparations; Substances for tanning animal skins and hides; Adhesives for use in industry; Putties and other paste fillers; Compost, manures, fertilizers; Biological preparations for use in industry and science; Chemical compositions and materials for use in science; Growing media, fertilizers and chemicals for use in agriculture, horticulture and forestry; Mineral fertilising preparations; Biostimulants for plants; Biostimulants for plants; Plant-growth promoters containing microorganisms; Preparations for fortifying plants; Growing media for plants; Ameliorants for the soil; Nutrients for plants; Preparations for fortifying plants; Plant nutrition preparations; Plant growth regulating preparations; Mixtures of chemicals and natural materials for use as agricultural fertilizers; Nutrients for plants; Humus; Peat [fertilizer]; Surface active chemical agents for use in forestry; Chemicals for use in the prevention of environmental damage to plants; Mineral products for use in growing plants; Soil conditioning preparations for enhancing the growth of agricultural products; Unprocessed bioplastics; Bioplastics made from bacteria and microalgae; Bioplastic compositions made from bacteria and microalgae; Hydrochar; Unprocessed plastics; Unprocessed plastics for industrial use; Unprocessed artificial and synthetic resins; Polymerisates of organic compounds for the plastics industry; Water retaining granules for use in the capillary root feeding of plants; Diagnostic kits comprising specimen receptors and reagents for testing for selected bacteria; Chemical testing kits for determining water properties.

6 - Metal materials for building and construction; Structures and transportable buildings of metal; Non-electric cables and wires of common metal; Hinges of metal; Hinges of metal incorporating a spring; Fittings for aircraft; Slings of metal for handling loads; Hoisting slings of metal for handling loads; Structures of metal; Structural steels; Platforms [structures] of metal; Parts, fittings and accessories included in this class for all the aforesaid goods.

7 - Machine tools; Motors, other than for land vehicles; Machine coupling and transmission components (except for land vehicles); Vending machines; Agricultural implements, other than hand-operated; Moving and handling equipment; Conveyors and conveyors belts; Industrial robots; Tube conveyors, hydraulic; Pneumatic valve actuators; Linear actuators [mechanical]; Hydraulic valve actuators; Pneumatic or hydraulic linear actuators, other than for land vehicles; Actuators for mechanisms; Actuating mechanisms for operating aircraft flaps; Actuating mechanisms for controlling slats; Aircraft engines; Articulated transmissions for aircraft; Blades for aircraft turbines; Motors for model aircraft; Power transmissions for aircraft; Power transmission couplings for aircraft; Drive chains for driving aircraft; Geared electric motors for aircraft; Rocket engines for the propulsion of aircraft; Power transmissions for aircraft; Engines and motors for model vehicles, aircraft and boats; Drive belts for driving aircraft; Rocket motor propulsion apparatus for boats; Rocket motor propulsion apparatus for aircraft; Propulsion mechanisms, other than for land vehicles; Electric propulsion mechanisms for water vehicles; Rocket motor propulsion apparatus for water craft; Rocket propulsion engines for boats; Electric propulsion mechan-

isms for machines; Thrusters [marine propulsion apparatus]; Lifting platforms; Power installations [generators]; Parts, components and accessories for all the aforesaid goods included in this class.

11 - Water purification, desalination and conditioning installations; Sewage treatment [purification] installations; Sanitary installations, water supply and sanitation equipment; Sterilization, disinfection and decontamination equipment; parts, fittings and accessories for the foregoing goods included in the class.

12 - Vehicles; Apparatus for locomotion by land, air or water; Parts and fittings for vehicles; Pneumatic or hydraulic linear actuators for land vehicles; Pneumatic or hydraulic linear actuators for apparatus for locomotion by air; Pneumatic or hydraulic actuators for apparatus for locomotion by air, turbines for aircraft; Military drones; Civilian drones; Pilotless aircraft; Monocoque structures for aircraft; Satellites for transportation; Cable transport installations; Space vehicles; Launch vehicles in the nature of spacecraft; Self-driving transport vehicles; Land vehicles and structural parts therefor; Driverless vehicles; Autonomous vehicles based on artificial intelligence solutions; Robotic and self-driving transport vehicles that transport people, packages, supplies and freight; Satellite dispensers; parts, fittings and accessories [included in this class] for the aforesaid goods.

13 - Weapons and ammunition; Sighting mirrors for guns and rifles; Sighting devices for firearms [other than telescopic]; Gun sights for firearms [not optical or telescopic]; Sights, other than telescopic sights, for artillery; Sights, other than telescopic sights, for firearms; Sights, other than telescopic sights, for artillery; Unmanned remote-controlled powered aircraft for use as military targets; Actuators being parts of weapon ejecting installations; Adjusting knobs for gun sights; Barrels for cannons; Pyrotechnic thrust generators for steering airborne weapons; Mortars [weapons]; Radio controlled miniature aerial targets for military use; Gun parts; Artillery guns [cannons]; Weapon systems; Launchers for missiles; Naval gun fire predictors; Armaments installations; Parts, fittings and accessories for the aforesaid goods included in this class.

38 - Data transmission and data broadcasting; Telecommunication services; Broadcasting services; Computer communication and Internet access; Satellite transmission; Transmission of data via satellite; Provision and rental of telecommunications facilities and equipment; Rental of telecommunication facilities; Professional consultancy relating to telecommunications; Providing telecommunications connections to a global computer network; Wireless broadcasting; Telecommunications routing and junction services; Information about telecommunication; Rental of access time to global computer networks; Radio communications; Radio broadcasting; Communication services by satellite; Operation of telecommunications satellites; Operation of satellite-to-earth receiver arials; operation of earth-to-satellite transmitters; providing of data connectivity via satellites; Providing access to electronic communications networks via satellites; Transmission of data by microwave; Wireless communications services; Wireless broadband communication services; Computer intercommunication; Telephone and mobile telephone services; Communications by cellular phones.

39 - Launching of satellites; Launch and placement in prescribed orbit of satellites of others; Rental of navigational systems; placement in prescribed orbit of satellites; Launching of spacecraft; space shuttle services; flights for space missions; piloting of satellites; aircraft tracking conducted by satellites; tracking of vehicles, ships, equipment, animals, persons and other identified items conducted by satellites; consultancy in relation to the abovementioned services.

40 - Recycling and waste treatment; Treatment of waste materials in the field of environmental pollution control; Soil, waste or water treatment services [environmental remedi-

ation services]; Treatment and processing of plastics; Thermal treatment of waste; Production of bioplastics, for others; processing of bioplastic; Providing information relating to the processing of plastics; Energy production; Water treating; Carbonisation; Hydrothermal carbonisation of biomass; Hydrothermal carbonisation of biomass from agriculture and forestry; Reclamation of material from waste; Treatment [reclamation] of material from waste; Custom manufacture of satellites; Custom manufacture of satellite antennas; Custom manufacture of spring and hinge deployment mechanisms for solar panels, antennas and other space instruments; Custom manufacture of fibre optic broadband equipment; Custom manufacture of deployment mechanisms and actuators for use in space for satellites and other space platforms; Custom manufacture of mechanisms and actuators based on shape memory technology; Custom manufacture of radiation-resistant analogue, digital and mixed-signal microelectronics devices, including transceivers and converters for space communications and space-standard chips; Custom manufacture of devices forming sensor networks for monitoring telescope structures and data display and processing equipment; Custom manufacture of passive heat transfer devices; Custom manufacture of thermo-structural radiator panels forming the satellite structure; Custom manufacture of thermal systems comprising multiple radiators and condensers; Custom manufacture of propulsion supply equipment consisting of a pressure regulating panel and an electronic and support control panel; Custom manufacture of single or multi-layer insulation devices for passive thermal control by means of radio-active insulation.
